Burnout is an amazing racing game with a difference. Drive at incredible speeds through everyday traffic with your heart in your mouth and sweat on your palms. Now you can get behind the wheel for intense action that rivals the most spectacular movie road chases you've ever seen. Arcade-style handling against opponents and against the clock make Burnout a game you won't put down. The incredibly spectacular and realistic crashes make it an experience you won't forget.

As a cabby with attitude, you're single goal: to rack up the mega-bucks in fares and tips before your shift ends. Race against the clock as you pick up passengers and white-knuckle it through busy streets to their various destinations. To keep that meter collecting cash, you've gotta take the fastest route possible. Drive the wrong way down a one-way street, catch air as you sail over rooftops, or plough through a pavement cafe. The city's obstacles are guaranteed to slow you down.

The Dark Yabu kills the grandfather of the young Vexx, who manages to slip quietly aboard the enemy's windship. There, locked deep within Yabu's sanctum, lie the last pair of Astani Battle gauntlets. They leap from their chest onto Vexx's hands, bonding to his arms and giving him special powers. Vexx embarks upon a quest, to confront Dark Yabu atop the Landspire, save his people, and avenge the death of his grandfather.

Aggressive Inline Skating has been around since the inception of the inline skate. Today there are a handful of aggressive inline skaters who dominate the industry – Taig Khris, Eito Yasutoko, Jaron Grob, Sam Fogarty and Shane Yost – all of them are in Aggressive Inline. Aggressive Inline isn't a walk in the park – it's big air, big tricks and lots of grinds.

After thirteen years in prison, Dr. Buc Ooze has escaped and resumed his controversial research into animal shaping, locking creatures into unnatural three-dimensional forms. The ZooCube - a machine specifically designed to reverse Ooze's process - awaits your command. Place pairs of animals together on the ZooCube to neutralise Ooze's shaping fields but be careful not to overload it. Freed animals will be transported back to the Ark's hold, the ArkHive, for later rehabilitation. Can you save the planet?
